SAFETY SOLUTIONS

We are the leading Health & Safety Business in Ireland & the UK

One Company Covers You

With offices in Ireland, Northern Ireland & England, we are well placed to service multiple clients requirements. We are the complete one company solution for a businesses health and safety requirements

HOW WE HELP YOUR BUSINESS:

CONSULTING & AUDITING

With a team of 60+ Health & Safety Consultants and growing, we work with some of the leading businesses across the UK, Ireland & the rest of Europe.

TRAINING AND CERT MANAGEMENT

We offer a range of Professional Training Courses across the UK & Ireland. Our unique cloud based software offers a managed service allowing us to ensure your staff are trained for the works you carry out.

EQUIPMENT INSPECTIONS

Our qualified inspection professionals complete GA1, LOLER and PAT testing and give you secure access to reports, certificates and renewal information through our cloud-based system.

MANAGEMENT SYSTEMS

We offer Auditing Services to ensure your company achieves and maintains required credentials, such as ISO9001, ISO14001 & ISO45001, SAFE-T-CERT, Achilles, NERS and Tender Prequalification's & Submission Support.

QUALITY SURVEYING

Our quality surveying team provides independent oversight across power, telecoms and construction projects. We complete detailed field audits, identify risk and compliance gaps and provide clear, practical reports.

DIGITAL COMPLIANCE

Our CheckedOK system makes equipment checks accurate, time-stamped and easy to complete from a phone. Scan the asset code, complete the checklist and access inspection records through one central portal.

We offer managed DS Total Cover - an annual service that helps your company stay compliant and provides ongoing support. It includes safety documentation, training management, equipment inspection coordination, access to your records and expert advice.

We are Dynamic to our clients needs regardless of size

We are the leading Health & Safety Consultancy company in Ireland and the UK

Our fully qualified and registered team of Dynamic Safety Solutions consultants provide expert advice on all aspects of Health & Safety issues and policies.

To ensure you are fully informed of the latest legislation, Dynamic Safety Solutions can provide management advice specific to your industry.

It is your legal responsibility but allow us to keep you up to date.

Our range of clients vary from multinational organisations and 1500+ Staff to sole-traders with 1 staff member.

We offer unique internal & external auditing to suit your company for all of the specialised industries we work in.

Consider our Total Safety Cover solutions - employ our Health & Safety Advisors on a retainer basis to manage all aspects of your Health & Safety in your workplace.

PERSONAL TRAINING & UPSKILLING

We have a range of courses to suit Managers, Supervisors, Foremen, Safety Officers, Safety Representatives and Employees. The content and duration of these courses have been developed to suit the personnel involved.

The prime motivator for employee training is to improve productivity, performance and of course be legally compliant with the relevant Health and Safety Legislation. Training also gives your staff a clear understanding of their roles and responsibilities within your organisation.

Here at Dynamic Safety we feel that training boosts a feeling of value in employees. It shows that the business is committed to providing them with the resources & knowledge needed to ensure they're doing a good and safe job.

We pride ourselves on offering a range of training courses that we tailor specifically to your needs. Our skilled team will consult with you to build training packages that fit your requirements to ensure legal compliance & employee satisfaction.

We are a premium partner with Skillko which allows us to offer a training managed service to our clients. From onboarding staff, training staff and managing the certificates expiration dates, we are proud to offer an end-to-end solution that our clients love.

ACCREDITATION BODIES

RYAN CASSIDY
Project Manager
Northern Ireland

Dynamic's knowledge of our industry is second to none & the manner in which the training is completed is why they are always on the top of our supplier selection list for training.

MEGAN LYDON
H&S
P&D Lydon, Ireland

Based on their rapid response to our requests and vast amount of training courses they complete, they are the perfect solution for our training requirements.

LISA COLTAN
Managing Director -
Northern Ireland

From Plant & Machinery to office based training Dynamic has always delivered top quality training for all our works in Northern Ireland, Scotland & England.

Your LOLER and General Application Inspection Specialists

Schedule routine inspection or last minute work, our Dynamic Safety Solutions team are here to help

Our Testing & Calibration division is run in partnership with our clients, not just focussed on the task to hand.

Focused on your business, we carry out our inspections at times & locations that suit you. After the inspections are completed we ensure you have access to your own cloud based database for

all of your certificates. To top it off your dedicated account manager will be in contact 6 weeks before the expiry date to reschedule the inspection again.

INDUSTRIES WE ARE ACTIVE WITHIN

- ▶ Distribution, Transmission & Power Lines
- ▶ Water
- ▶ Telecoms & Fibre
- ▶ Construction
- ▶ Renewable Energy
- ▶ Manufacturing
- ▶ Hospitality
- ▶ Quarrying & Mining

Statutory inspections of plant and equipment is a legal requirement for any business & must be carried out by a competent person.

The aims of statutory inspections are that:

- ▶ Lifting operations are properly planned and managed.
- ▶ Lifting equipment is used in a safe manner.
- ▶ Lifting equipment is thoroughly inspected at suitable intervals by a competent person.

Dynamic Safety Solutions leading specialised engineers can visit any location throughout the UK & Ireland to conduct statutory examinations of your equipment at times that suit your business requirements.

Our process flow is completed in 4 stages:

- ▶ Bespoke scheduling & booking of your inspections to suit your business timelines.
- ▶ Complete the inspections which adhere to UK & Ireland Legal requirements.
- ▶ Management of certificates, reports & software training to access your certificate for business requirements.
- ▶ Consultation with you to discuss defective items & industry advice through our consultancy department.

“

FRANK HARRINGTON
Jnr Director -
Harrington Quarries

Dynamic complete GA inspection for us on our Tar Plant & Equipment. As our plant can sometime be on projects when they need to be tested, Dynamic will also accommodate our needs & travel to where the inspections need to be carried out.

“

BERNARD DOWNEY
Project Director
Power & Utilities -
EU Power, Ireland

We use Dynamic for a range of their services, in particular GA Inspection of our lifting & plant equipment. The quality of Dynamic engineers & their approach in completing the inspection is the reason why they will be a long term partner to our businesses.

Lets us implement, support or help maintain your Management Systems

We get to know your business and ensure your management system works for you

At Dynamic we help organisations improve their operational performance.

By specifying repeatable steps that organizations consciously implement, goals and objectives are achieved. Creating organisational culture that engages a continuous cycle of self-evaluation, correction and improvement of operations and processes through heightened employee awareness and management leadership and commitment.

Having a Management System in place is important as it provides the ability to enact growth, increase profitability and leads to overall cost savings. Reducing administrative tasks allows your workforce to be more efficient and with established Quality Management Systems results in sustainable improvements in areas of business development & tendering applications.

The benefits of an effective management system to an organisation include:

- ▶ **More efficient use of resources and improved financial performance**
- ▶ **Improved risk management and protection of people and the environment**
- ▶ **Increased capability to deliver consistent and improved services and products, thereby increasing value to customers and all other stakeholders**

THOMAS DUIGNAN
Director - Instrotec, Ireland

We asked Dynamic to implement an ISO Integrated Management system. After months of collaboration & implementation across all of our projects, we passed the audit with no outstanding actions. Due to the professional manner to their approach, we have asked Dynamic to complete our internal audit programme monthly.

CHARLIE FARLEY
Director - Jorvik Design Group

Dynamic aided with the processes of our internal audits, the creation and implementation of new processes and audits. They assisted in coaching our IMS Manager to ensure we were confident to stand alone and could adhere to all our accreditation obligations.

WHAT ACCREDITATION CAN WE HELP YOU ACHIEVE?

No matter what your business does, workplace safety starts with you

Health, Safety and compliance

Health, Safety and Compliance can be a daunting prospect for start-up and existing businesses alike. DS Total Cover Health and Safety Compliance Packs are a range of packs designed by our safety consultants that guide small, growing and established businesses towards complete Health, Safety and compliance.

DS Total Cover Compliance packs were created:

- ▶ **For business who do not have the understanding, expertise, time or safety staff to manage safety.**
- ▶ **For business who want to change how they manage safety.**

Shifting your compliance management to a Dynamic Safety Managed Service allows you to take a proactive approach to remediate issues before they occur, reduce incidents and allow management teams to focus on strategic business operations. No long term contracts, No hidden cost, just Total Safety Cover.

Why consider DS Total Cover Compliance Packs?

- ✓ Adherence to legal obligations as set down by the Safety, Health and Welfare at Work Act, 2005
- ✓ Meet obligations as per business Employers Liability and Public Liability insurances
- ✓ To protect you as an Employer and your business against potential claims by staff/visitors
- ✓ To streamline staff management including training certificates, inductions and general information

DS Total Cover - Means Total Cover

We cover all things:

- ▶ Safety
- ▶ Compliance
- ▶ Training
- ▶ Equipment Inspections
- ▶ Documentation
- ▶ Expert Support

“

AOIFE O'NEILL

Restaurant Owner, Ireland

We didn't realise what we should have in place to be legally compliant and adhere to our insurance policies. Dynamic explained why and what we needed to implement - and did it in an extremely professional manner. The comfort of knowing our business is safe and legally compliant is invaluable.

OUR PLANS

All our plans are specifically developed to assist companies overcome some of their daily challenges and comply with their statutory duties.

Choose the right Health and Safety Pack for your business which can provide you with the basis of a complete safety management system ensuring that your operation is managed and operated efficiently and safely.

Choose from prebuilt plans or if you have specific requirements we have the option to build tailored plans.

ANN KIRKPATRICK of Sleek Hair Design, is a DS Total Cover Customer and owner of a Health & Safety Compliant business.
